WING-O

- MORE THAN WINGS -

The SOP Book

HOW WE RUN EVERY SHIFT · #BESAUCY

1. Opening the store	2
2. Closing the store	3
3. Wings: cook, sauce & toss	4
4. Taking orders & online orders	5
5. Saucy Stamps at the counter	6
6. Food safety & temperatures	7
7. Allergens & special requests	8
8. Handwashing & sanitizing	9
9. Receiving & storing stock	10
10. Fryer oil care	11
11. Making it right (complaints)	12

1. Opening the Store

Who: opening lead + opening cook. Start 60 minutes before doors open. Doors open on time, every time.

1 ARRIVE & SECURE

- [ ] Arrive on time, in full uniform (Wing-O shirt, hat or hair tied back, closed-toe non-slip shoes).
- [ ] Unlock, disarm the alarm, turn on lights, hood fans and music.
- [ ] Walk the store: anything broken, leaking or unsafe? Tell the manager before you start.
- [ ] Wash hands (20 seconds) before touching any food or prep surface.

2 EQUIPMENT ON

- [ ] Turn on fryers and let them reach set temperature. Check the oil (see SOP 10). Skim before first drop.
- [ ] Turn on the grill/flat-top, hot-holding wells and heat lamps.
- [ ] Check every fridge, freezer and walk-in temperature. Write them on the Temperature Log.
- [ ] Fill sanitizer buckets and test strength with a test strip. Log it.
- [ ] Turn on Clover, the kitchen screen/printer and the online-order tablet. Make sure the store shows as **open** online.

3 PREP & SET THE LINE

- [ ] Check the prep list and the par sheet. Pull product from the freezer to thaw **in the fridge**, never on the counter.
- [ ] Fill sauce bottles and the toss station. Every bottle is labelled with name + date.
- [ ] Stock dips, cups, boxes, bags, napkins, utensils and the drink fridge.
- [ ] Set up the front counter: clean menus, Saucy Stamps sign up, pens, card terminal charged.
- [ ] Sweep the dining room, wipe tables and chairs, check the washrooms (log it).

4 FINAL CHECK (10 MINUTES BEFORE OPEN)

- [ ] Outside: sidewalk swept, garbage cans not overflowing, window and door glass clean.
- [ ] Music on, lights on, "OPEN" sign on at opening time.
- [ ] Team huddle (2 minutes): today's deal, flavour of the week, anything sold out, who's on what station.

NEVER OPEN IF…
There is no hot water, a fridge is above 4°C with food in it, there is a gas smell, or there is no working handwash sink. Call the manager right away.

2. Closing the Store

Who: closing lead + closing cook. Kitchen cleaning starts only after the last order is out. Never rush a guest out.

1 LAST ORDERS

- [ ] At closing time: turn the "OPEN" sign off and make sure the store shows as **closed** online.
- [ ] Finish every order that is already paid or placed online.
- [ ] Check Clover for any open online orders that were not picked up. Tell the manager before closing them.

2 FOOD

- [ ] Wrap, label (name + date) and put away all food. Throw out anything past its date.
- [ ] Cool hot food the right way (SOP 6). Never put a hot pot straight into the walk-in.
- [ ] Write tomorrow's prep needs on the prep list.
- [ ] Check fridge and freezer temperatures one last time. Log them.

3 KITCHEN

- [ ] Turn off fryers. Filter or change the oil per SOP 10 once the oil is cool enough to do safely.
- [ ] Scrape and clean the grill. Empty and clean the hot-holding wells.
- [ ] Wash, rinse and sanitize all bowls, tongs, toss bowls, sauce pumps and cutting boards.
- [ ] Wipe and sanitize every prep surface, the toss station and the cooler handles.
- [ ] Sweep and mop the kitchen floor, including under equipment. Empty all garbage and recycling.
- [ ] Do the daily closing checklist (Cleaning Sheets) and initial it.

4 FRONT & LOCK-UP

- [ ] Clean tables, chairs, counters, drink fridge glass. Restock for the morning.
- [ ] Check and clean the washrooms. Log it.
- [ ] Count the cash drawer and close out Clover. Put the deposit in the safe.
- [ ] Lights off, hood fans off, back door locked, alarm set. Two people leave together.

3. Wings: Cook, Sauce & Toss

This is what we're known for. Every order gets the same crunch, the same sauce coverage and the right flavour, every time.

1 COOK

1. Read the ticket: **bone-in or boneless, how many, which flavour(s)**, dry rub or sauce, dip.
2. Drop wings into hot oil in one layer. Don't overfill the basket: wings must move freely.
3. Fry for the full set time: _____ minutes at _____ °F (kitchen manager fills this in).
4. Wings are done when they are golden and crispy and reach **74°C (165°F)** inside. Check with a probe thermometer when unsure.
5. Shake the basket, let the oil drip for 10 seconds, then go straight to the toss station.

2 SAUCE OR RUB

1. Use a clean, dry toss bowl for every flavour. Never mix one flavour into the next order.
2. **Sauced:** add the measured sauce (_____ oz per order) and toss until **every wing is fully coated**.
3. **Combo flavours** (Illegal Sauces, Second Round, etc.): use equal parts of each sauce unless the recipe card says otherwise.
4. **Dry rubs:** shake the rub over hot wings in the bowl and toss so it sticks to every side.
5. **Extra sauce / sauce on the side**: only if the ticket says so. Use a lidded cup and label it.

3 PACK & CHECK

1. Pack hot wings into the box with the right dip(s). Flavour sticker or marker on the lid.
2. **Double-check:** ticket flavour = lid label = what's in the box. Read it out loud at the pass.
3. Bag with napkins and wet naps. Staple the ticket to the bag. Call the order.

THE SAUCE BOSS STANDARD
Hot, crispy, fully sauced, right flavour, out fast. If a basket doesn't meet it, it doesn't leave the kitchen. Remake it.

4. Taking Orders & Online Orders

Every guest gets greeted within 10 seconds, even if you're busy. A smile and "Hey, welcome to Wing-O!" goes a long way.

1 AT THE COUNTER

1. Greet the guest. First time here? Explain how it works: pick wings (bone-in or boneless), pick a sauce, pick a dip.
2. Help them choose: ask what they like (sweet, hot, smoky, dry). Point to the sauce board and suggest a favourite or the flavour of the week.
3. Ring it into Clover. Repeat the order back: **item, flavour, quantity, dip, any allergy**.
4. Ask: "Are you on Saucy Stamps?" (SOP 5). Take payment and give a time estimate.

2 ONLINE ORDERS (WEBSITE)

1. Online orders show up in **Clover as an open order** named "Online pickup / Online delivery: guest name", with a full note: order #, phone, items, flavours and notes.
2. The guest **pays at pickup** (or at the door for delivery). The order is not paid until you take payment.
3. Start online orders right away, in the order they came in. Treat them exactly like a counter order.
4. **Pre-orders** come in while we're closed and are marked "PRE-ORDER". Have them ready for the time shown when we open.
5. Delivery orders include a $5.50 delivery fee, already on the order.
6. If anything is sold out or unclear, **call the guest** using the phone number on the order before you start cooking.
7. When the guest arrives: confirm the name and order #, take payment, then close the order in Clover.

ONLINE ORDER DIDN'T SHOW UP IN CLOVER?
The website also emails every order to the store. Check the store email, call the guest to confirm, and tell the manager so it can be checked the same day.

5. Saucy Stamps at the Counter

Saucy Stamps is our free loyalty card. 10 orders = a free half order of wings. It brings guests back, so offer it every time.

1 SIGN GUESTS UP

1. Ask every guest: "Are you on Saucy Stamps? It's free: 10 orders gets you free wings."
2. They sign up on **wingorestaurants.com** with their name, phone and email. It takes 30 seconds on their phone.
3. Online orders get stamped automatically when the guest uses the same phone number.

2 REDEEM A FREE ORDER

1. The guest shows their card on their phone. A free order shows a reward code like **SAUCY-1234** (last 4 digits of their phone).
2. Open the staff page **wingorestaurants.com/stamps-admin** and enter the staff password (ask the manager).
3. Search the guest's phone number. Check the name matches and that a free order is available.
4. Ring up the free half order in Clover, then press **Redeem** on the staff page so it can't be used twice.
5. Congratulate them: "Your 10th one's on us. Thanks for being saucy!"

RULES
One reward per code. No cash value. Never share the staff password or look up a guest's card for anyone but that guest. Guest phone numbers and emails stay private.

6. Food Safety & Temperatures

Safe food is non-negotiable. These are the numbers health inspectors check. Know them by heart.

74°C	60°C+	≤ 4°C	−18°C
COOK CHICKEN (165°F) INSIDE	HOT HOLDING (140°F) OR HOTTER	COLD HOLDING (40°F) OR COLDER	FREEZER (0°F) OR COLDER

The danger zone is 4°C to 60°C. Bacteria grow fast in it. Keep food out of the danger zone.

1 RULES

- ☐ Check and log every fridge and freezer **at opening and at closing** (Temperature Log). If one is too warm, move the food and tell the manager.
- ☐ Thaw only in the fridge, under cold running water, or as part of cooking. Never on the counter.
- ☐ Raw chicken goes on the **bottom shelf**, below ready-to-eat food. Separate tongs and boards for raw.
- ☐ Reheat leftovers to **74°C** within 2 hours. Only reheat once.
- ☐ **Cooling:** from 60°C to 20°C within 2 hours, then to 4°C within the next 4 hours. Use shallow pans and ice baths.
- ☐ Label everything: product name + date made. **First In, First Out (FIFO).**
- ☐ Probe thermometers get sanitized before and after every use and checked weekly in ice water (should read 0°C).

2 SICK? STAY HOME.

If you have vomiting, diarrhea, fever or jaundice, **do not come to work**. Call the manager. You can come back 48 hours after symptoms stop. Cover cuts with a bandage and a glove.

WHEN IN DOUBT, THROW IT OUT.
Never taste food to check if it's still good. If it's past its date, smells off or was left out, it goes in the garbage. Tell the manager so it's written on the waste sheet.

7. Allergens & Special Requests

An allergy mistake can put a guest in the hospital. Take every allergy seriously, every time.

1 WHEN A GUEST SAYS THEY HAVE AN ALLERGY

1. Stop and listen. Write the allergy clearly on the ticket and **tell the cook out loud**.
2. Check the ingredient list / recipe card for every item and sauce they want. If you're not 100% sure, **ask the manager**. Never guess.
3. Tell the guest honestly: our kitchen uses shared fryers and shared surfaces, so **we can't promise any item is allergen-free**. Let them decide.
4. Cook makes the order with clean gloves, a clean bowl and clean tongs, and keeps it apart from other food.
5. The person who made it hand-delivers it or labels it "ALLERGY" and confirms with the guest.

2 COMMON ALLERGENS TO WATCH

Milk/dairy (ranch, blue cheese, creamy and cheese sauces, Parmesan), wheat/gluten (breading, buns, battered items), egg (mayo-based dips), soy (teriyaki, some BBQ), mustard (honey mustard), sesame, fish (some Caesar), peanuts/tree nuts, sulphites. **Always check the label. Recipes and suppliers change.**

3 SPECIAL REQUESTS

- [ ] Sauce on the side, extra crispy, light sauce, half & half: say yes whenever we can, and write it on the ticket.
- [ ] Can't do it? Explain why and offer the closest thing we can do.

8. Handwashing & Sanitizing

Clean hands and sanitized surfaces stop germs. This is the easiest way to keep guests and the team safe.

1 WASH YOUR HANDS WHEN…

- [ ] You start a shift or come back from a break.
- [ ] After touching raw chicken or meat, and before touching cooked food.
- [ ] After using the washroom, eating, drinking, smoking, touching your face, phone or hair.
- [ ] After taking out garbage, cleaning, or handling money.
- [ ] Before putting on new gloves. (Gloves don't replace handwashing.)

2 HOW

1. Wet hands with warm water. Add soap.
2. Scrub for **20 seconds**: palms, backs, between fingers, under nails, thumbs, wrists.
3. Rinse well. Dry with a paper towel. Turn the tap off with the paper towel.

3 CLEAN → RINSE → SANITIZE

1. **Clean**: scrape and wash with hot soapy water.
2. **Rinse** with clean water.
3. **Sanitize**: use our sanitizer at the strength on its label (test with strips; e.g. quat about 200 ppm, chlorine about 100 ppm). Leave it on for the contact time on the label. Air dry.
4. Change sanitizer buckets every **4 hours**, or sooner if dirty. Log every test.

9. Receiving & Storing Stock

Every delivery gets checked before the driver leaves. If it's not right, we don't accept it.

1 RECEIVING

1. Check the invoice against what's delivered: item, count, size.
2. Check temperatures: cold food **4°C or less**, frozen food frozen solid with no thaw or ice crystals.
3. Check dates and packaging. Reject anything damaged, leaking, expired or too warm. Write it on the invoice.
4. Put away **frozen first, then cold, then dry goods**. Within 15 minutes of delivery.

2 STORING

- [ ] FIFO: new stock behind or under old stock.
- [ ] Label with the date received or date opened.
- [ ] Walk-in shelves (top to bottom): ready-to-eat → produce → raw chicken and meat on the bottom.
- [ ] Nothing stored on the floor. Keep 6 inches off the floor.
- [ ] Chemicals stored away from food, below and separate.

10. Fryer Oil Care

Good oil = crispy, golden, great-tasting wings. Bad oil = dark, greasy, bitter wings. Look after it.

1 EVERY DAY

- [ ] Skim crumbs out often during the shift.
- [ ] Shake off ice before frying frozen product (water makes oil spit and breaks it down).
- [ ] Filter the oil at close (or as often as the manager sets). Let it cool first. Wear gloves, apron and face protection.
- [ ] Top up with fresh oil to the fill line. Log it on the Fryer Oil Log.

2 CHANGE THE OIL WHEN

- [ ] It's dark, smells burnt or fishy, or smokes at normal temperature.
- [ ] It foams a lot, or food comes out dark before it's cooked inside.
- [ ] Test strip says change (if we use them), or on the manager's schedule.

SAFETY
Never add water to hot oil. Never move a fryer with hot oil in it. Never leave the fryer on and unattended at close. Know where the fire suppression pull station and the K-class fire extinguisher are.

11. Making It Right

Every guest leaves happy. A complaint is a chance to win a regular for life.

1 L.A.S.T.

1. **Listen**. Let the guest finish. Don't interrupt or argue.
2. **Apologize**. "I'm really sorry about that." Even if it wasn't your fault.
3. **Solve**. Remake it fast, fix the order, or get the manager. Ask "What would make this right for you?"
4. **Thank**. "Thanks for telling us. We'll make sure it's right next time."

2 YOU CAN ALWAYS…

- [ ] Remake any item that isn't right (wrong flavour, not crispy, cold, missing). No questions.
- [ ] Add a missing item or dip right away.
- [ ] Get the manager for refunds, discounts or anything you're not sure about.

3 ONLINE REVIEWS

Guests get a review email after their order. Happy guest? Ask them to leave us a Google review. Bad review? Tell the manager. The manager replies politely within 24 hours and invites them back.

Sauce Boss
